Hi,

My name is Jakub Martisovits. I've lived in Seattle downtown for the past 6 years. It was brought to my attention (<http://www.seattledra.org/home/2021/6/3/is-it-public-outreach-if-no-one-knows-about-it>) that the #3028017-EG project had inadequate public outreach. It seems to me that the developer is avoiding public outreach requirement like the physical sign, and sending required mailings. If the developer of that project has indeed not followed the rules, I would ask that their EDG meeting be delayed until they do the proper notification of neighbors.

Sincerely,  
Jakub

To whom it may concern,

Until the applicant holds a true outreach process, including the written notice to neighbors which is required, the June 15th EDG2 meeting for 3028017-EG should be delayed. This is yet another example of developer overreach — trying to ram a project through without adequate input from the neighbors who will be impacted by it. Thank you for your consideration.
