There is a significant very tall, well rooted tree on this property, 44th Street side that should not be removed during construction. It is well within the legal size to be preserved under city law. Please be sure to retain this tree. It is a very important part of the quality of landscape in the neighborhood. We are owners of two units across the street.

Thank you for your kind consideration. Regina Yeh 5011B 44th Ave NE. 206 898 7945
