Layer: Review Comment

Review Type: Housing

MHA is applicable to your project. Please add a MHA Summary Table to the plan set for the next review cycle.

MHA requirements may be satisfied through the payment option or performance option. See Tip 257 for more information.

If determination of MHA applicability is still pending, please continue to work with the MHA Reviewer. In the event the MHA Reviewer determines MHA is not applicable to this project, this Housing Review will be marked as not required and there will be no need to respond to this correction.
